The specification has been amended in order to more particularly point out the claimed invention. The informalities referred to by the Examiner at page 2 of the Official Letter have been changed as suggested. Inasmuch as no new matter is introduced by these amendments, entry is respectfully requested.

The rejection of claims 1-10 (it is presumed that the Examiner intended to reject all of the claims) under 35 USC 112, second paragraph, as indefinite for failing to particularly point out and distinctly claim the invention is respectfully traversed.
